

*Irenat® unavailable for at least 2 years.*

**New alternative:**

## Sodium Perchlorate Dyckerhoff 300 mg/ml oral drops

Dear colleagues,

Sodium perchlorate drops are an **essential medicine** in radiology, nuclear medicine, and intensive care. **Irenat® will be unavailable for at least 2 years** (production stop). [1]

With authorisation from German authorities, Dyckerhoff Pharma is marketing a new finished medicinal product as a direct alternative to Irenat®. Now available for import!

### Sodium Perchlorate Dyckerhoff 300 mg/ml oral drops

- **Continuously available:**  
**Manufactured at our own GMP facilities**  
in **Cologne, Germany**, without contract manufacturers.
- **Same dose per drop as Irenat® from Germany**,  
therefore **compatible with the dosing regimen**  
that has been **established for over 60 years**.

*1 ml solution (approx. 15 drops)  
contains 300 mg sodium perchlorate.*

*1 drop contains 20 mg sodium perchlorate.*

In most countries, the dosing regimen has been based on **Irenat® from Germany** (15 drops/ml, 20 mg/drop).  
**Check your clinical guidelines!**

- **Bilingual packaging:** The product is shipped with a label and leaflet in both English and German.
- **Package leaflet in English, French, German, Dutch** and others: [www.dyckerhoff-pharma.de/sodiumperchlorate](http://www.dyckerhoff-pharma.de/sodiumperchlorate)
- Certificate of Pharmaceutical Product (CPP) can be requested.
- Recommended by the German professional associations ADKA, DGE and DGN [2].

*Developed and  
manufactured at our  
own GMP facilities  
in Germany.*

**Now available for import:**

**Art. 19275343 Hospital pack 10 x 20 ml    Art. 19275337 Single pack 1 x 20 ml**

We look forward to your feedback and we will be happy to answer any questions.
